SUMMARY

Security-focused Penetration Tester and Bug Hunter with hands-on experience in identifying web application vulnerabilities. Strong knowledge of OWASP Top 10, penetration testing methodologies, and exploitation techniques such as SQL Injection, CSRF, IDOR, and XSS. Skilled in using tools like Burp Suite, Nmap, Metasploit, and Postman to assess security risks and deliver clear vulnerability reports.

WORK EXPERIENCE

Penetration Tester Intern – Digital Egypt Pioneers Initiative (DEPI) (Oct 2025 – present)

- Conducted reconnaissance and vulnerability assessments on web applications using tools such as Nmap, Burp Suite, Metasploit, and Postman
- Completed 100+ hands-on labs on PortSwigger Web Security Academy covering OWASP Top 10 vulnerabilities
- Assessed security of 10+ web applications using automated and manual testing techniques
- Performed network scanning and service enumeration to discover security weaknesses
- Documented 15+ vulnerability reports with proof of concept and remediation recommendations

Network Security Trainee – Elsewedy Industrial Group (EIG) (Jan 2024 – Mar 2024)

- Designed and secured an enterprise network simulation for a company with 2 branches
- Configured +20 network devices including routers and switches following security best practices
- Implemented segmentation and access controls to reduce internal attack surface
- Identified and fixed +10 security misconfigurations during network assessments

Bug Hunter (Freelancer) – HackerOne

- Performed continuous security testing on web applications to discover real-world vulnerabilities
- Identified and reported security issues such as SQL Injection, XSS, CSRF, IDOR, SSRF, and Path Traversal

- Conducted reconnaissance and asset discovery to expand attack surface
- Delivered detailed vulnerability reports following responsible disclosure practices

EDUCATION

Bachelor of Artificial Intelligence in Cybersecurity – Menofia University, Shebien Elkom (Aug 2022 – present)

GPA: 3.0

Relevant Courses: Ethical Hacking, CCNA, Databases, Network Security, Cyber Operations

SKILLS

Technical Skills: Web Application Penetration Testing, OWASP Top 10, Vulnerability Assessment, Exploitation Techniques, Network Security, Secure Configuration, Reconnaissance & Enumeration, Security Hardening, Vulnerability Reporting

Security Tools: Burp Suite, Nmap, Metasploit, SQLmap, Nessus, Wireshark, Nikto, Recon-ng, Hydra, Gophish, Postman

Programming Languages: Python, C++, JavaScript,

Databases: MySQL, MongoDB

Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork

CERTIFICATES

eLearnSecurity Junior Penetration Tester (eJPT) – May 2024

- Gained hands-on experience in penetration testing, networking, system administration, and vulnerability assessment using real-world scenarios.

Cisco Network Security and Cyber Operations – Nov 2023

- Learned network security fundamentals, secure network design, segmentation, and protection against common misconfigurations and threats.

Cisco Certified Network Associate (CCNA) – Jan 2022

- Built solid understanding of networking concepts such as TCP/IP & routing
